### **Curriculum alignment for Canada Kindergarten to Grade 6**

#### **Introduction**

**At 3P Learning, we are committed to providing students, teachers and schools with high-quality learning resources that align with the most up-to-date curricula.**

**Our team of educators has created a spelling course to meet the requirements of the Canadian curricula so you can be assured that your students have access to relevant content. This document outlines the word lists and activities recommended for each grade and acts as a useful guide when using Readiwriter Spelling in your school.**

**Each spelling word list is available in three levels (core, entry, and exit) to assist teachers in providing differentiated content. In addition to the 11,000 words and hundreds of word lists, teachers also have access to grade-level courses that can be tailored to suit their specific class. Teachers can also create or import their own word lists, spelling courses, and edit individual word lists when modifications and extensions are required. There are also ready-to-go complete sets of Dolch and Fry's word lists to target spelling of high-frequency words and sight words.**

**Note: The order of the word lists in each course differs from the order presented in this document.**
